## PHP WEB DEVELOPER

---

To obtain a challenging web developer position in a dynamic and innovative organization where I can utilize my technical and creative skills to develop and maintain responsive, user-friendly, and visually appealing websites.

I have completed PHP Web Developer Internship at Cofa Studio-Multimedia Agency in August 2024. Worked on different ecommerce and crm systems with core php technology. Manage api base applications which is done in json format.

## PROJECTS

### ProcurMart

**Link:** <https://procurmart.com/newsite/backend>

Developed a comprehensive CRM dashboard application using PHP for managing product information and categories. Key features include:

- **Category Management:** Implemented functionality for adding, editing, and deleting categories and subcategories through a user-friendly interface.
- **Product Management:** Enabled the addition of products with detailed information, including image uploads. Provided options for editing, deleting, viewing, and changing the status of products.
- **Dashboard Analytics:** Designed and integrated a dashboard displaying real-time statistics, including counts of pending, active, and deactivated profiles, as well as the number of main and subcategories.
- **Recent Activity Feed:** Implemented a section to showcase the last 10 recently added records for quick access and monitoring.

- **Backend Language:** PHP
- **Database:** MySQL
- **Web Server:** Apache or Nginx
- **Front-end:** Integration with HTML, CSS, JavaScript (for dashboard visualization)
- **Libraries/Frameworks:** Potential use of Core PHP
